Tips for meeting attendees:

- Please use headphones with a mic if you have any so that you can hear and be heard clearly
- Turn on and position your camera properly, in a stable condition
- Mute your microphone to help keep your background noise to a minimum
- Please “comment” if you have a question
- After you speak / “comment”, place yourself on mute
- You may also type a question into the chat box
- If we don’t get to everyone’s questions, we will keep track and share (with everyone) follow-up answers to your questions
- Be patient, we are all navigating a new way of doing business!
